PROJECTS

DISHDASH - Food delivery website

[GitHub](#) — [Demo](#)

- Developed a responsive and animated food delivery website using HTML, CSS, and JavaScript with a focus on smooth UI/UX and mobile performance..
- Implemented interactive meal catalog, real-time cart updates, responsive navigation, and optimized animations using CSS transforms and opacity.

SkyCast — Real-Time Weather Forecasting Application

[GitHub](#) — [Demo](#)

- Built a web-based weather forecasting tool that allows users to retrieve **current weather** details by entering a city name through **API integration**.
- Focused on efficient **data fetching** and responsive design to ensure fast and accurate weather updates.

TaskFlow - Daily Task Organizer

[GitHub](#) — [Demo](#)

- Designed and implemented a web-based task organizer that supports **CRUD operations** for managing personal and professional to-do items
- Enhanced usability by integrating **dynamic task rendering** and simple navigation for better task management

WORK EXPERIENCE

Frontend Developer Intern

Infosys Sprinboard Internship 6.0, Remote

2nd Feb 2026 – 2nd April 2026

- Developed a responsive frontend for **Prescripto**, a multi-role healthcare system supporting Patient, Doctor, Caregiver, and Admin workflows.
- Implemented features such as **appointment booking**, prescription management, and health report viewing using dynamic React components.
- Integrated backend APIs using **Axios / Fetch API** to enable real-time data communication and seamless user interactions.
- Utilized **React Hooks** and **React Router** for state management and navigation across role-based dashboards.

CERTIFICATIONS

- Selected as a **Contributor in the Open Source Track** for **GirlScript Summer of Code (GSSoC'26)**.
- Completed **10+ Java certifications** from **Infosys Springboard** and **Deloitte Cyber Job Simulation**
- **Top 25 teams finalist** in **Hack Shastra Hackathon**
- Participated in **Tech Clasher** and **Hack Vrishk** hackathons organized by **GNIOT** and **GL Bajaj**
